PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science and Engineering undergraduate with hands-on experience in Java, Android application development, and technical engineering workflows. Backed by strong academic excellence (8.81 CGPA) and multi-disciplinary industrial exposure. Seeking Software Engineer, SDE, and Graduate Trainee roles at product-driven organizations.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Mobile Development: Android Studio, XML Layouts, Intent Navigation, Activity Lifecycle

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS

Developer Tools & Platforms: Git, GitHub, Android Studio, Jupyter Notebook, VS Code, MATLAB

Soft Skills: Public Speaking, Cross-Functional Team Leadership, Stress Management, Decision Making

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS, MPOnline Digital Marketing

WORK EXPERIENCE

Industrial Trainee — T-Hub, T-Works, L&T Metro, BSNL

2025 | Hyderabad / Pune

- Studied startup incubation ecosystems, prototyping labs, infrastructure operations, and telecom network systems across four organizations.
- Analyzed complex systems and operational frameworks, translating technical insights into structured functional summaries.

Social Media Marketing Volunteer — Hamari Pahchan NGO

- Assisted in designing social media creatives and digital content to support outreach initiatives.
- Supported crowdfunding initiatives and contributed to a social entrepreneurship project.
- Drafted and organized essential documentation, reporting directly to the President, Anjli Mathur.

PROJECTS

AeroSpace Weather Forecasting Model (Team Size: 6)

Sept 2025 – Feb 2026

- Developed a community-level weather tracking system deployed for local regional analysis in Kothrikalan Village.
- Collaborated in a 6-member cross-functional engineering team to integrate sensor data streams and build structured forecasting models.
- Optimized data ingestion workflows to improve response reliability and weather trend visibility.

Campus Phonebook & Contact Management Android App

Android Studio / Java

- Engineered a fully functional native Android application utilizing Java and Android Studio for local contact organization.
- Implemented robust CRUD operations allowing users to seamlessly add, edit, rename, and delete directory contacts.

Café House: Food Ordering Mobile Application

Android Studio / Java

- Built an end-to-end food ordering mobile application featuring secure user authentication (Sign Up, Sign In, Login).
- Developed core shopping features including dynamic Add-to-Cart management, order review screens, and checkout flows.

EDUCATION

B.Tech in Computer Science and Engineering — VIT Bhopal University

2023 – 2027

CGPA: 8.81 / 10.0

Senior Secondary (Class 12) — Sunbeam School Varuna

2022

Percentage: 94.8%

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Marketing Analytics: Qualified with 97% Score, standing in the Top 5% nationwide.
- HackerRank Certification: Earned Problem Solving (Basic & Intermediate) credentials.
- SEBI NISM Certification: Qualified professional examination with a score of 43/50.
- MathWorks MATLAB Onramp: Completed certification demonstrating core proficiency in numerical computing environments.
- NPTEL Machine Learning: Successfully completed foundational coursework in Machine Learning algorithms.
